

# homeopathy

with cassandra everett

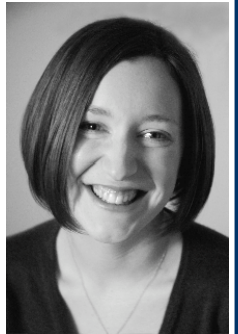

- improve your physical and/or emotional health problems
- increase your energy, improve sleep and enjoyment of life
- increase resistance to infections & your ability to cope with stress
- safe to take alongside your medications and can help reduce side effects
- remedies come from natural sources such as plants and minerals
- preparation process eliminates the danger of toxic side effects or addiction

A homeopath treats the individual as a 'whole person', taking account of diet, circumstances, background, mood & personality as well as the presenting symptoms. It stimulates the natural tendency of the body to heal itself. Homeopathic remedies are made from natural sources such as plants and minerals which are processed in such a way to raise their healing potential. Everyone can take homeopathic remedies (including pregnant women & babies). Homeopathy can be used to treat any illness for which medical treatment would normally be sought.

"Not only did Cassie cure my migraines and the sickness that went with them, I now also have pain-free periods. Cassie a true professional, she is incredibly knowledgeable in her field." D.D

"I'm 42 and I'd been trying for a baby for 19 years, I was told by doctors it would be virtually impossible as I was diagnosed with PCOS but after several months of treatment & nutritional advice I became pregnant" S.A

After working in the Marketing/PR industry **Cassandra Everett** decided that her passion for working with people would be more fulfilled through a career in medicine. Having this experience has enabled me to understand how difficult it is to achieve balance when living such a hectic lifestyle. My aim is to help other people to restore balance to their lives too. Cassandra specialises in treating hormone related problems such as Infertility, PMS, PCOS, menopause problems, pregnancy, endometriosis and fibroids.
